

TZ9555

TZ9555

TZ9555-R

profile	code	reinforcement dimensions [mm]	side [mm]	maximum horizontal span [mm]	maximum vertical span [mm]
				aluminum	aluminum
TZ9555	TZ9555	80 x 40 x 2	95	3400	3400
			55	2600	
	TZ9555-R	40 x 40 x 2	95	2500	3000
			55	2400	

Maximum spans calculated considering:

- maximum permanent deformation due to own weight 2,5 mm
- maximum non-permanent deformation 30 mm considering a standard wind load of 150 kg/m²
- aluminum reinforcement standard thickness 2 mm, with greater thicknesses it is possible to reach greater spans
